Drug Education Network Years 5 and 6 Education Session

Dear Parent/Carer,

The Drug Education Network (DEN) is visiting Campbell Town District High School. On Tuesday 23 September 2025 all students in Years 5 and 6 will participate in an education session relevant to their age and developmental stage.

The information provided will include how different circumstances and substances can change the way we feel (whether pain medicines, caffeinated drinks, or different levels of rest) and will design their own 'natural' energy drinks while learning how we can influence the way we feel and act through things like exercise, food, and sleep.

The Drug Education Network neither condones nor condemns drug use and uses the principles of drug education to help keep your young people informed and safe from harms caused by drugs.

If you would like to find out more about the Drug Education Network, check out their website at www.den.org.au or give them a call on 1300 369 319.

If you are you interested in learning more about alcohol, tobacco, and other drugs and how you can keep your young people safe please visit the CODE website www.code.den.org.au to find accurate up-to-date information and resources to keep you and your loved ones safe.

If you have any questions, please do not hesitate to contact me via the school office on 63811166.

Regards

Louise Hawkins
School Health Nurse
